# ABOUT THIS MONITOR

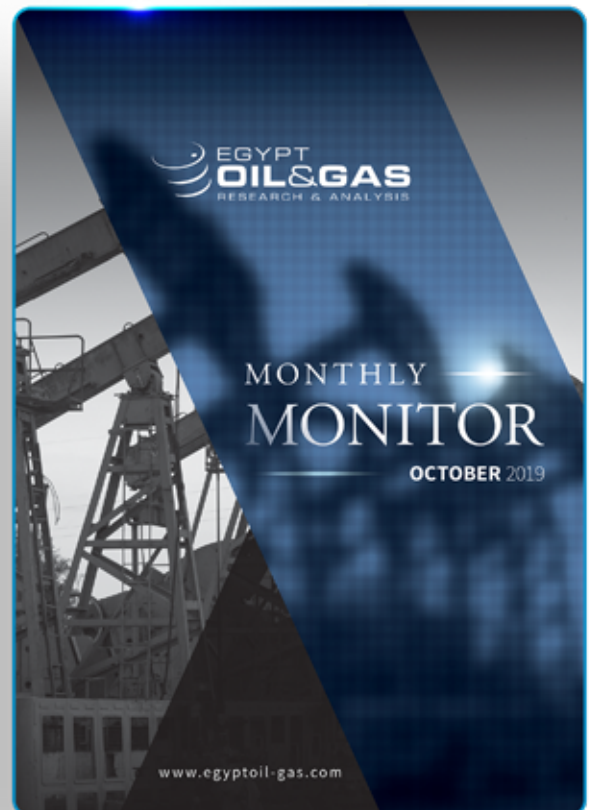

The Research and Analysis (R&A) Division in Egypt Oil & Gas is always aiming to provide the oil and gas stakeholders with the most significant figures in the promising sector. Hence, the R&A team is now publishing “Egypt Oil & Gas Monthly Monitor”, as a platform that mainly displays monthly oil and gas updates and analysis. The monitor comprises seven sections, each of which represents a different theme. These sections track the performance of the petroleum sector, locally as well as internationally. Moreover, the monitor undertakes a great blend between economics, politics, investments, and security to clearly reflect Egypt’s current status.
