ABOUT THIS REPORT

With the New Administrative Capital to be inaugurated soon, Invest-Gate Research and Analysis team presents an in-depth overview on this major development that is set to reshape Egypt, covering its significant public and private projects.

This report covers the private sector's strategies and investment trends in the upcoming period at the new capital. It also investigates NAC market from the real estate agents' perspectives. Furthermore, we showcase consumers preferences and their relocation option, highlighting further areas for investment to meet the needs of future inhabitants of the city.

A SPECIAL THANK YOU TO **SKY ABU DHABI DEVELOPMENTS**

We at Invest-Gate would like to thank SKY ABU DHABI DEVELOPMENTS for sponsoring this report. The real estate major developer is seen as one of the leading market developers with projects of exceptional features and that cater to all needs.

A B O U T

SKY AD. DEVELOPMENTS

SKY ABU DHABI Developments is a regional real estate developer, with various mixed used developments featuring different models of residential units and leisure facilities ensuring fully integrated communities.

Owned by Diamond Group that is enriched with over 20 years of experience in the UAE market, SKY AD.'s vision is to satisfy the needs of the Egyptian real estate market, to produce valuable, sustainable and high-quality integrated communities in Egypt, as well as successful partnerships with customers and with an expanded investment portfolio.

Moreover, the company's mission is to exceed customers' expectations to raise the benchmark for integrated living in Egypt to new heights and providing the end-user with added value beyond their homes. This is achievable through developments, timely delivery of innovative projects, distinctive product-mix

and thriving communities where people can live, work and play.

SKY AD. is introduced in the Egyptian market as a trustworthy developer who is under a powerful regional group that will familiarize the market with its first project located in one of the most promising locations in the new capital, in addition to having a promising plan to expand its portfolio in Egypt.

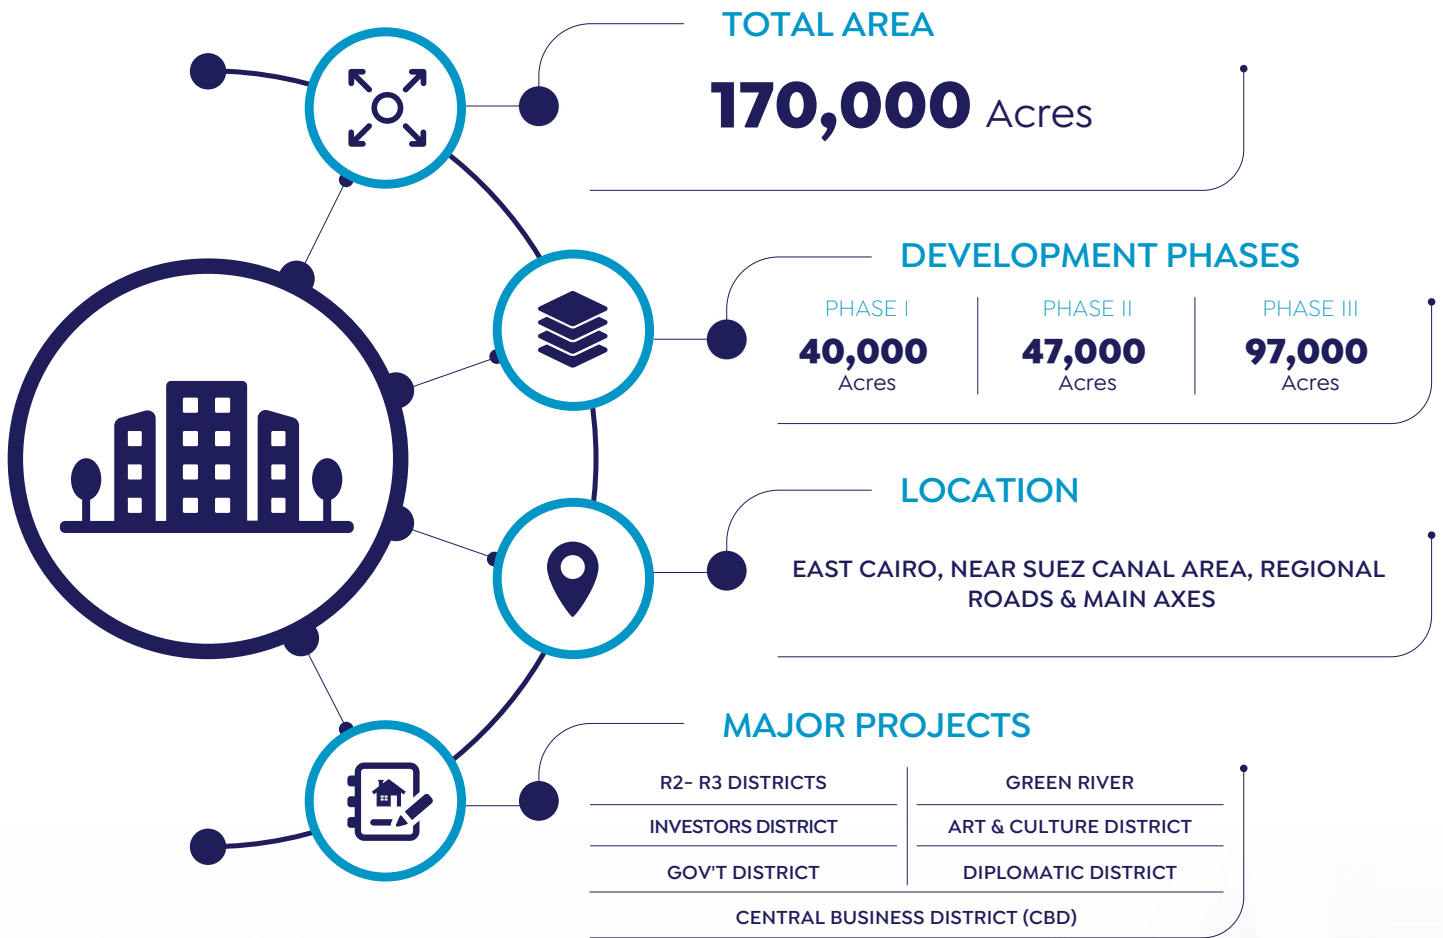

It is worth highlighting that SKY AD.'s Residence Eight project in NAC spans over 23 acres and is located at the R8 District. Residence Eight will consist of a total of 1,000 units residential, in addition to commercial, business, and mixed-use units. Besides, it will feature a clubhouse, gym, health club, smart facility management, underground automated parking, full access control, pools, outdoor areas and lounges at roof, kids' areas, dining, bikes lanes, and jogging track.

SECTION III

ONE GREAT INVESTMENT POTENTIAL FOR THE PRIVATE SECTOR

Given most significant projects located in NAC, Invest-Gate R&A team has surveyed about 29 private real estate developers to extract their vision for choosing NAC as their investment destination and how they boast the future of Egypt's real estate market.

Analyzing the average number of developers of the new city in, approx. 69% have less than three projects in NAC. About 27.6% have begun developing from three to six projects, and the rest (3.4%) have more than three projects. This indicates that NAC is the new investment destination and the majority of market developers already have or will have their mark in NAC.

AVERAGE NO. OF PROJECTS COMPANIES HAVE IN NAC

UNIT TYPES

RESIDENTIAL UNIT TYPES

CURRENT MARKET STANCE

Looking at the demand for units in NAC from the developers' perspective, about 89.7% believe that commercial and administrative units are the most requested unit type; meanwhile, 55.2% see that the residential type is more desired.

All our surveyed Apartments are the most demanded unit type, followed by villas (25%), twin houses (18.8%), and then townhouses, according to 12.5%.

With an eye on the demand wave that most of our surveyed companies witness, according to 37.9% of respondents, the mainstream of consumers, who look forward to relocate, are within the age category of 30-40 years; while the remaining 62.1% of respondents see that the majority of homebuyers age between 40-50 years.

HIGH-DEMAND AGE GROUPS (YRS)

PRIVATE SECTOR'S SALES STRATEGIES & MARKETING DRIVERS

Examining sales strategies and marketing drivers, 65.5% choose to attract homebuyers with extended installment or payment plans. Decreasing unit prices comes second at 62.1%, and low down payments comes third at 27.6% as the most attractive features for today's homebuyers and the most desirable tools to boost demand in NAC.

SPECIAL OFFERS TO BOOST DEMAND

In a bid to further reinforce sales and achieve more, there are several mechanisms followed. Around 62.1% of our surveyed developers depend greatly on the efforts of their sales departments to represent their firms and interact closely with the consumers. Besides, 20.7% of respondents believe that exhibitions' return plays a major role in increasing sales, and approx.. 13.8% of our surveyed developers prefer showcasing their products online for wider and easier reach especially post pandemic. The remaining developers rely more on real estate agents as the main method of sales.

EFFICIENT SALES MECHANISMS

According to 13.8% of our surveyed developers, sales of their NAC projects are less than 50% compared to their other projects. Around 17.2% represent 50% in NAC of total sales; and the remaining 69% achieved sales of more than 50% in NAC, in comparison to other areas. This indicates that the

new city has great investment opportunities for the private sector and especially for new commers.

SALES IN NAC VS. OTHER AREAS

Analyzing private investments, Invest-Gate found out that 13.8% of private developers have less than 50% of their investments in NAC. However, 65.5% have more than 50% of their total investments in NAC, with the remaining developers boasting approx. 50% of the their investments in NAC.

INVESTMENTS IN NAC VS. OTHER AREAS

FUTURE OUTLOOK

A majority of 89.7% from private sector stand optimistic as the future in NAC looks promising and all plan to further pump more investments in this new anticipated city. To the contrary, 6.9% remain skeptical and have no clear vision on market development at NAC.

For those who intend to inject more investments, 64.3% plan to invest more in commercial segment, while 7.1% prefer administrative. Additionally, 28.6% tends to pump more investments in residential projects.

Looking at the most attractive locations for investments in NAC, according to 39.3% prefer downtown. Approx. 32.1% prefer the Central Business District (CBD) followed by R8 District, R7 District, MU32 area, among others at similar ratios.

EXPECTED FUTURE INVESTMENTS

PREFERRED LOCATION FOR INVESTMENT

PREFERRED SEGMENT FOR FUTURE INVESTMENTS

About 89.7% of developers see residential demand in NAC is on the rise; however, 6.9% remain indifferent about future demand, and 3.4% expect the adverse that demand will drop.

EXPECTED FUTURE DEMAND

SECTION IV

HOMEBUYER'S PREFERENCES

In conducting this study, Invest-Gate R&A team spoke to over 100 potential homebuyer from diverse demographics to analyze the demand in NAC, their preferences, and the idea of relocation outside the capital.

CONSUMERS DEMOGRAPHICS

According to our survey, 56.44% of respondents are females and 43.56% males. Approx. 52.3% are between 20-29 years old, 27.9% are between 30-39 years old, and 19.8% are more than 40 years old. Regarding marital status, 55.1% of those polled are single, 42.9% are either married or engaged, and the remaining 2% are divorced or widowed. The majority (approx. 95.9%) are bachelor's degree holders.

AGE GROUPS (YRS)

MARITAL STATUS

EDUCATIONAL LEVEL

WILLINGNESS TO RELOCATE IN NAC

Regarding the respondents' willingness to own a unit in NAC, 44.6% of polled consumers plan to purchase a unit, while the rest (55.4%) do not have any near plans. Most potential owners (approx. 95.6%) tend to have a residential unit. The remaining 4.4% are going to buy a commercial/administrative unit. Looking at the residential segment, approx. 91.1% of our surveyed respondents prefer to have an apartment, while the rest (8.9%) choose to own a villa.

Future Plans To Own New Home

UNIT TYPES

HIGH-DEMAND SERVICES FOR POTENTIAL BUYERS

Regarding affordability, 93.3% need a unit of less than EGP 2 mn, whereas 6.7% can obtain a unit with a price ranging between EGP 2-4 mn.

Focusing on the suitable payment methods, the majority (93.3%) can pay for a unit via installments; however, the rest (6.7%) can buy in cash. For those preferring the installment method, 56.8% see that the payment plan that exceeds eight years is the best for them, while 22.7% prefer to pay within three to six years, and the rest (20.5%) need a payment period between six and eight years.

PREFERRED RESIDENTIAL UNIT TYPES

Digging deeper into the respondent's needs, 48.9% of potential buyers prefer their unit area to range between 80 and 100 sqm, while 33.3% choose an area between 100 and 150 sqm. About 13.3% and less prefer units with areas less than 80 sqm, and Only 4.4% prefer units more than 100 sqm in size.

On a similar note, those who are willing to relocate, pay attention to available services. Thus, according to 73.3% of potential buyers, medical and educational services are a priority, while 71.1% emphasize the necessity of security and entertainment services. 68.89% focus on transportation availability and road networks, and the rest (66.7%) look for commercial services.

OBSTACLES OF HOME OWNERSHIP IN NAC

For those who cannot afford a residence in NAC, it is worth to note the challenges hindering them from doing so. Approx. 57.6% are unable to pay installments, and 56.1% believe that the high prices are a main reason that hinders them. Additionally, 12.1% of them refer to the pandemic woes and its reverse effect on their purchasing power, and the rest (9.1%) point out to the absence of credit facilities is a challenge too.

OBSTACLES FACING POTENTIAL BUYERS

SECTION V

REAL ESTATE AGENTS INSIGHTS

Invest-Gate R&A team surveyed 37 property consultants to dig deeper into the market trends and opportunities.

Since NAC is currently seen as the gateway to the future, most of the real estate developers and agents have directed their investments and activities thanks to the new capital's attractive merits. According to 73% of the surveyed agents, NAC's solid infrastructure and road networks are among the area's alluring points. Meanwhile, 32.4% believe that NAC is a national project that is attention-grabbing to various investors to be part of, while 24.3% of respondents see that it is the present and the future investment destination for national and international investors.

Moreover, 21.6% of surveyed agents affirm that the main advantage of NAC is being smart, which copes with the current technological wave in all aspects not only the real estate one. Adding to this, having all services is what attracts 18.9% of our respondents, yet 10.8% are fascinated with the city's towers and skyscrapers.

NAC'S ATTRACTIVE ADVANTAGES (%)

Speaking of the high demand areas at NAC from the perspective of the real estate agents, most of them (37.8%) select the downtown area as the top-notch investment area, followed by R7 District, according to 32.4% of respondents.

Furthermore, 10.8% see that the R8 District is among the high command investment areas at NAC, as well as the Central Business District (CBD) and the Green River, according to 8.1% and 5.4%, respectively.

PREFERRED LOCATION

Regarding the most requested unit categories, according to our surveyed property agents, 62.2% believe that the lion's share of consumers is looking for residential units, while the remaining need commercial/administrative ones.

For the residential units, 43.5% of respondents look for apartments, while 26.1% need to own villas. Additionally, 26.1% seek to have townhouses, and the remaining 4.4% search for twin houses.

For the most desirable unit areas, regardless the type, most consumers (48.7%), according to the surveyed agents, need unit area more than 150 sqm; however, 35.1% look for unit areas less than 80 sqm.

OFFERED UNIT CATEGORIES

RESIDENTIAL UNIT TYPES

PAYMENT METHODS

UNITS AREA (M²)

OPTIMUM PAYMENT PLANS (YRS)

With an eye on the average prices requested by consumers, based on agents' opinions, 37.8% aspire to have a unit that worth more than EGP 4 mn; yet 32.4% look for a unit price ranging between EGP 2-4 mn, and the remaining need to have a unit with less than EGP 2 mn.

For the preferred payment methods, 64.9% of agents believe that installment is the most requested method for payment, and the remaining believe that cash is the ideal payment way.

Looking at those who prefer paying via installments, 45.8% of them aspire to pay over three to six years, while 8.3% require from six to eight years, and the remaining (45.8%) need more than eight years.

Concerning the desired delivery dates, 64.9% believe that reserved units will be delivered during the period of one to three years; meanwhile, 29.7% believe units to be ready after three years, and the remaining see that other units might be handy in less than a year.

According to our analysis, we can notice the developers' high interest to invest in NAC, to be part of the future. Besides, the real estate agents have referred to many advantages, including solid infrastructure, road networks, and smart technologies.

EXPECTED DELIVERY DATE (YRS)

In a nutshell, the Invest-Gate R&A team reviews NAC, the future gateway, by highlighting the progress made by the government, in addition to showcasing the features of the significant private sector projects. Moreover, we address the future of NAC market, according to the perspectives of a group of surveyed developers, brokers, and consumers.

Consequently, there are some recommendations to flourish this area more, as follows:

- Provide consumers with more flexible payment plans, such as decrease the amount of down payment, extend the installment years, discounts, etc.
- Facilitate the procedures required for mortgage to purchase a unit.
- Support cooperation protocols between banks and real estate developers to provide mortgage finance over a longer period.
- Issuance of a detailed executive regulation for the president's decision to construct 30% of the project before marketing it to protect the customers' rights and prevent the market from randomness.
- Organization of more exhibitions to enable developers to showcase their projects along with their features, in addition to providing the consumers with a chance to benefit from more offers and encourage them to know more about different projects.
